Satcom Technology Ltd is a leading supplier of satellite tracking and security systems specialising in the protection of “High Risk” & “High Value” goods in transit. Having been involved in the security industry since 1984 and the GPS tracking industry since 1994, we are in a position to understand our client requirements and the risk associated with the transportation of high risk and high value goods as well as fleet management systems. On a daily basis we protect the following goods;

**Explosives & Detonators**

**VIP's & Executives**

**Cigarettes & Tobacco**

**Cash & Valuables**

**Wines & Spirits**

**Chemicals & Pharmaceuticals**

**Games & Consoles**

**Phones & SIM cards**

**General Electronic Goods**
